

Asian Journal of Mycology News

Congratulations to Dr. Jutamart Monkai

Congratulations on your new job at the Center of Excellence in Fungal Research, Mae Fah Luang University

Dr. Jutamart Monkai received her Ph.D. in Botany from Kunming Institute of Botany, Chinese Academy of Sciences, China in 2017. During her Ph.D, she had been awarded a CAS-TWAS President's Fellowship. Her expertise is on mycology and microbial ecology. She has contributed many SCI papers which focusing on taxonomy, diversity and ecology of soil and litter fungi.

Recently, Jutamart has been appointed as a **Researcher at Center of Excellence in Fungal Research, Mae Fah Luang University Thailand.** She is currently carrying out research in diversity and ecology of fungi in soil and plant litter in Thailand and screening bioactive compounds from fungi. Her research interests focus on the development of biological control agents such as fungicide and insecticide from fungi to effective control plant diseases and insect pests in important economic crops of Thailand.

We wish you good luck with your new position
